

With your help, in 2022...

Hannah's Hope was able to:

- Provide **2000+ hours** of counseling and/or case management to **more than 175** vulnerable mothers and their children
- Support over **50 women** as they have made parenting plans for their baby
- Support **5 women** as they made adoption plans for their baby
- Provide approx. **\$12,000** in fee assistance making adoption affordable for people across the economic spectrum
- Worked with more than **120 adoptive and prospective adoptive families** providing consultations, education, home studies, post placement services and post-adoption counseling.

Hannah's Hope is so thankful for your support in 2022. Without it we could not have served the women, children, and families that so desperately needed support. We saw an increase in the number of women who needed our services, and we expect to see this trend continue. We hope that you will continue to support our ministry in 2023 as we continue to serve some of the most vulnerable populations in West Tennessee.
